During the last year there has been a falling of in the attendance upon almost every Sunday School in Kentucky. Of course, there were reasons for this. Large numbers had been called away from home because of the war; many others were so interested in war measures that they neglected the regular work of Sunday School Now that we have entered upon the new year strenuous efforts must be made not only to bring our Sunday Schools back to their normal condition but to move forward.

April will be observed all over the state as Visitation Day. Plans are being made in large numbers of communities and it is hoped that these plans will extend to the entire state to visit every home finding the church and Sunday School preferences, giving invitations, in the name of all Sunday Schools in the communit.es, to become members of some Sunday School For particulars write to the Kentucky Sunday School Association, 712 Louisville Trust Building, Louisville, Ken-

EVERYBODY IS NOW FIGURING INCOME TAX

In Order to Be Helpful to Public, Internal Revenue Bureau Has Every Available Officer in Field.

SEVERE PENALTIES IF YOU DELAY BEYOND MARCH 15

With the due date for Income Taxes only a few weeks away, the collection of this far-reaching tax on 1918 incomes has started off with a bang. Everybody is figuring income tax. Payments and sworn statements of ncome must reach Internal Revenue offices on or before March 15, and there are severe penalties for delinquency. Residents of Kentucky should make their returns and pay their taxes to the nearest of the following: Josh T. Griffith, Owensboro; J. Rogers Gore, Louisville: Charlton B. Thompson, Covington; Elwood Hamilton, Lexington : John W. Harghes, Danville. "Pay your Income Tax by March

"Pay your Income Tax by March 15," is the slogan of the Internal Revenue Bureau, which has sent every available officer into the field to help the public to understand the requirements and to prepare the returns.

Who Must Make Return.

It is estimated that many thousands of single and married persons in this section of the United States who have never before made annual returns are required to do so this year.

Income tax returns must be made between now and March 15 by persons

who come under the following classifications:

Any unmarried person whose 1918
net income was \$1,000 or over. Widows and widowers, divorcees and married persons who are living apart from

their husbands or wives, are for the purposes of the Income Tax classed as unmarried.

Any married person living with wife or husband whose 1918 net income was \$2,000 or over. The income of both husband and wife must be considered together with the earnings of minor

Revenue Bureau Offers Ald.

Each person in the United State who is in either of these classification must get busy at once if penalties ar to be avoided. He should secure blank Form 1040 A for reporting mincome up to \$5,000, or Form 1040 i his net income exceeded that amount Forms are being distributed by Collegors and their Deputies, also by banksity following the instructions on the forms a correct return can be prepared thome. If a person needs advice and, the Deputy Collectors in the field

will furnish this without charge.

The new Revenue law places the Income Tax duty on citizens and residents. The Internal Revenue Bureaus sending its men to work right with the public to get the tax and the returns in. With active co-operation every tax due March 15 will be paid and every return required by law will be in the R venue offices on time.

Exemptions Are Allowed.

A single person is allowed a personal exemption of \$1,000. If he is supporting in his household relatives who are dependent upon him he may claim the status of the head of a family who has the same exemption as if married.

A married person who lives with wife or husband is allowed a personal exemption of \$2,000. The head of a family is entitled to claim a similar

An additional exemption of \$200 is allowed for each person under eighteen or incapable of self support who was dependent upon and received his chief support from the taxpayer.

A husband and wife living together are entitled to but one personal exemption of \$2,000. If they make separate returns the exemption may be claimed by either or divided.

Absolute accuracy is necessary in making up income figures. Any person who is working for wages should find out exactly how much he received during the whole year 1918. Fees, bank interest, bond interest, dividends, rents received and all other items must be reported correctly. Mere guesses are not accepted, for they are unjust alike to the taxpayer and the Government and defeat the proper administration of the law.

THIS TELLS HOW TO FIGURE INCOME TAX

Squarely Up to Every Individual to Get Busy by March 15 or Suffer Penalty.

"Don't wait until the final due date, March 15th, for paying your Income Tax and making your return. Avoid the last minute rush. Any person can figure out his liability today as well as he can next week, and if there is any point on which he needs advice he can now get in touch with a Revenue man."

This word of advice is being given out by Internal Revenue men. Returns and payments are being collected in Kentucky by the following Collectors of Internal Revenue:

Josh T. Griffith.
J. Rogers Gore.
Charlton B. Thompson.
Elwood Hamilton.
John W. Hughes.

Every aid of their offices and field forces is being given freely to the public.

But the Income Tax men will not pull your door-bell or your coat-tails, according to the Collector's announcement. It is squarely up to every individual to figure out his own case and to get busy if he comes within the scope of the new Revenue law.

Did You Earn This Much?

Every unmarried person who received income averaging \$19.25 a week during 1918 and every married couple who jointly received income averaging \$38.50 a week should secure at once from the nearest Deputy Collector of the nearest bank a blank Form 1040 A. That form contains the information he will need to enable him to figure his correct net income and any tax that he owes the Government.

The law requires that every unmarried person who had a net income of \$1,000 or over and every married person whose net income was \$2,000 or over (including the income of husband or wife and the earnings of minor children, if any) must make a return on or before March 15th. And this requirement does not hinge on whethes he person owes a tax.

An individual must include under cross income all gains, profits and in come derived from salaries, wages of compensation for personal service of whatever kind and in whatever formaid or from professions, vocations usiness, sales or dealings in propert of all kinds, interest, rent, dividend or profits derived from any source whatever. Very few items of incompany arguments.

are exempt.

Deductions include ordinary and necessary business expenses, interest pale or accrued on indebtedness, taxes of all kinds except Federal income and excess profits taxes and assessment for local benefits, losses actually sustained, debts ascerteined to be worth less and depreciation on buildings, machinery, fixtures, etc., used in business A further deduction is allowed for contributions to corporations operated for religious, charitable, scientific or educational purposes or for the prevention of cruelty to children or animals to an amount not exceeding 15 per cent of the taxpayer's net income as compute without the benefit of the contribution deduction.

The taxpayer is not allowed to deduct any personal, living or family expense, any amount spent for improving property or making good its exhaustion for which an allowance is claimed

under depreciation.

Figuring the Tax.

Before figuring the normal tax the dividends are deducted as credits from net income, together with the persons exemption. As in previous years, dividends of domestic corporations are exempt from normal tax when received by the stockholder.

by the stockholder.

The normal tax rates for citizer and residents are as follows: On the first \$4,000 of set income in excess of the credits the rate is 6 per cent; or any further taxable income the rate is 12 per cent.

The surtax rates apply to net in come of each individual in excess of \$5,000. The personal exemption and the dividends are not deductible beforecomputing surtax. In the case of returns by husband and wife, the net income of each is considered separately in computing any surtax that make due. Form 1040 should be used formaking returns of net income exceeding \$5,000, and the instructions on that form will show how to figure the surtax.

Employers and others who pair wages, salaries, rents, interest or similar determinable gains in an amount of \$1,000 or over during 1918 to an person must file an information return with the Government. Blanks may be secured from the Collector.

Every partnership must file a return showing its income and deductions and the name and address of each partner with his share of the profits or losses during the past year. Personal service corporations will file similar information for 1918.

COME TAX PAYS

"Viewed in its largest and a trust sense, the payment of a taxes is payment for benefits a received or expected. Only from a narrow and essentially selfish and shortsighted viewpolist can a the individual prepose in him a self the evagion of the hability as a desirable tourse of action."

YOU SHOULD HAVE ONE

IN every country of the world they are to day doing their share to make life more worth living and to raise humanity to a higher plane.

For them the blazing sun of the equator, or the frigid regions of the north, hold no terrors.

Regardless of surroundings, their creed is "Service", and to-day there are millions of owners who will testify to the fact that they are living up to that creed.

The half civilized natives of India finds it to their advantage to use them; the missionaries in China and the Jungles of Africa say they cannot do without them. In the training camps of America, England and Italy they were indispensible. On the battlefields of France they were doing the lion's share—Forging on through mud, wrecks, shell holes and entanglements-Going where others dared not venture.

Once they were considered an experiment, a rich man's luxury; to-day they are considered a positive necessity. Mer-

chants, doctors, lawyers, farmers, and men in every walk of life, have figured them a paying investment More business, more rest and a bigger, broader vision of life and people, are some of the dividends these people are receiving.

We are ready and willing to prove to you the following statement: No matter what kind of roads you have to travel, you can drive a Ford car over them easier, quicker, cheaper and safer than you can drive a team of horses and a rig over them.

Business, pleasure, time, convenience, recreation and necessity demand that you have a car. Ask the automobile owner's advice on buying a car, it doesn't matter whether he owns a Ford or not, he will tell you nine times out of ten to buy a FORD

When you buy from us it is our business to stand behind the car and see that you get the service which is due you. Our garage service is complete.

We are urging you to buy now: Spring will soon be here and it will be next to impossible for us to make prompt deliveries then.
